Experience

Technology Policy Development Specialist

Organization of Southern Cooperation (Intergovernmental Organisation)

Policy Advisory & Program Delivery: Lead the Technology Policy advisory & research initiatives, conducted cross cutting policy research across trade, tech & development finance & economics, across 28 member states spread over Africa, Asia & Latin America. Oversight of external consultants for specialized assignments & events.

Partnerships & Strategy: Partner with senior Secretariat leadership in the design and operationalization of digital transformation strategies for strengthening local innovation ecosystems. Develop engagement and advocacy plans to influence tech policies, forge strategic alliances and liaise with regional and international stakeholders to strengthen multilateral cooperation on tech governance, digital sovereignty & advancing South-South cooperation.

Research & democratizing complex data for non-technical stakeholders through intuitive web dashboards, decision-support applications & data analytics solutions, that allow stakeholders to interact directly with big data on regional priorities like trade & regional integration: **AfCFTA** (African Continental Free Trade Area) & the Sovereign Debt Servicing Intelligence Dashboard for the "CLUB" (Common Leveraging Union of Borrowers) initiative of OSC, contributing to emerging South-led efforts to reform global financial architecture, similar to the "Borrowers' Platform" later championed by UNCTAD at the FfD4 Conference in Seville in 2025.

Bilateral Diplomatic Coordination: Appointed to JTC (Joint Technical Committee) with MINT (Ministry of Innovation & Tech Ethiopia) to advance cooperation in Digital Transformation, Capacity Building and Youth Exchange. Co-organized GreSFET (Greater South Fair for Endogenous Technologies), fostering South-South knowledge exchange, technology transfer & strengthening innovation eco-systems with **SMEs & startups** participation from 14 countries.

Enabling evidence-based Policy & decision making: Conducted inter-disciplinary research & delivery of knowledge products such as country reports, indexes, dashboards, policy priority matrices, regional benchmarking frameworks, macro-economic forecasting & simulation, to inform policy & support decision making for Secretariat leadership, leveraging open access Big Data, satellite imagery, socio-economic & trade datasets, AI models & Machine Learning.

Monitoring & Evaluation, Policy & Strategic Frameworks: Created an M&E framework (a **composite Index**) to assess member-state tech readiness, track progress of local innovation & technological capacities to inform prioritization of interventions

Multilateral Consensus Building: Developed a quantitative regional policy benchmarking & interventions sequencing framework, addressing heterogeneity & facilitating multilateral consensus building, informing Technical Assistance design & helped sequence, harmonize & align interventions across member states for developing digital transformation RPG's (Regional Public Goods) like innovation hubs & incubators.

Deputy Director, Policy & Research

Services Export Promotion Council of India. (Ministry of Commerce & Industry)

Trade Data Analysis & Research: Led policy-oriented research & services trade analysis; analyzed data & industry inputs to identify trends and emerging issues relevant to services trade to support evidence-based decision-making for SEPC & MoCI (Ministry of Commerce & Industry), including inputs for trade negotiations (FTA's). 12 Services sectors are mandated to SEPC by the MoCI including IT, Health-care, Education, Tourism & hospitality, Environmental and Entertainment services among others.

Authored Sectoral Strategy & Policy briefs for various Services Sectors including a cover analysis available in public domain on geriatric care ecosystems & caregiver export potential against the backdrop of global ageing demographics & recommendations on relevant skilling, which **subsequently echoed in Union Budget 2026-27's** Care Ecosystem announcement, can be seen at PIB [Link](#) & brief publication [Link](#).
